

# 6 Steps to finances in your 50s

This can be the ultimate time in your life, with more 'me time' after your mortgage is paid off and the kids have moved out. Here are some tips to help you get the most out of your 50s.

## 1. THINK ABOUT YOURSELF

When you have lived for others, like kids, for so many years this is the time to focus on what makes you happy and plan for it.

## 2. A PLAN FOR THE KIDS

Help guide your kids with a plan to help them become more independent, especially with more kids leaving home later in life.

## 3. YOUR EMPLOYMENT

The look of employment has changed. Take the time to review your employment situation and ensure it is viable and fulfilling right through to retirement.

## 4. FINANCIAL PLANNING

With more disposable income, reach out to a qualified expert to assist you to ensure you can have the retirement you deserve.

## 5. SUPERANNUATION

Being aware of your super is important so you know that you'll have enough to retire on. Salary sacrificing is a great way to put more money away for retirement.

## 6. REVIEW INSURANCES

The potential to claim on insurance increases as you mature, but the need for insurance decreases as you age. Reviewing your insurance regularly.
